INTELLIGENT M2N CONNECTIVITY

sensorise connect & serve

Who we are?

Sensorise is the market leader in M2M Remote and Lifecycle Management of eSIM and IoT Devices

Our Products and Services are always "Standards aware", ensuring standards compliance

Services, supplying end-to-end solutions in

About Sensorise Enabling M2M adoption & proliferation

Registered M2M service provider

Industry Leadership

Pioneers of eSIM technology in India

Subsidiary of **Rosmerta Technologies Group**

Fully Standards Compliant

Trusted by more than 100 OEMs for M2M services

Market Presence

Sensorise

Sensorise

Sensorise

Sensorise

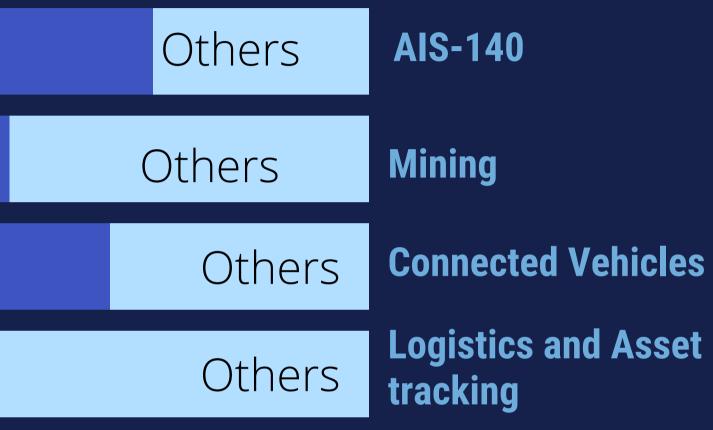

eSIM

Deployed Card Base

6

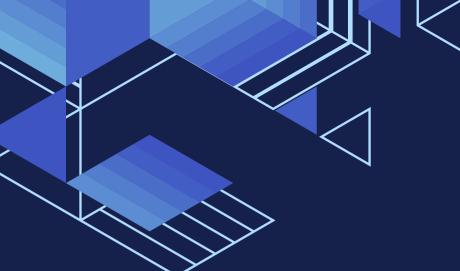

- **Bharat Mission**"
- Delhi NCR, Haryana and Kerala

• Diligent contributor in "Make In India" and "Swachh

 Successfully deployed IoT based Customer Feedback Device with remote features like portal, dashboard, analytics & field support in different states of India viz.

Our unique proposition

Telecommunications Security Messaging **Over-the-air management** Portals & analytics Machine Learning models

In-house R&D team with proven competency

Service Providers

hardware Embedded Software End-to-End Portals Analytics Field deployment Support

Main Business Lines

- Sensorise QoSim
- Sensorise SenseLCM
- SenseTouch KYC
- QoSec : End-to-end security
- SenselT CFD & MAID

Intelligent M2M connectivity

always on

Multi-profile card -Multiple subscriptionon the same card

0.....

02

automatic network switching capability

Industrial grade, tamper resistant

4 Available in all standard ETSI defined form factors and grades

08BIS16833 / AIS140 CertifiedTEC ESIM IR CompliantDoT M2M SIM Instructions Compliant

Image: Orgen blackRemote Manageable

06 Can be remotely managed by the SenseLCM®

05 Telco, Technology and device agnostic , Quality of Service for uninterrupted connectivity

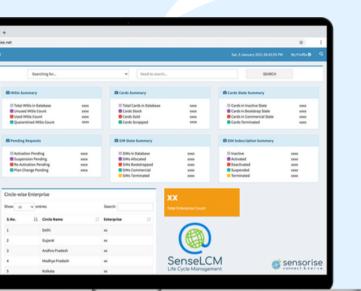

SenseLCM

Cloud-based portal with powerful capabilities for Lifecycle Management for Embedded SIM & Subscriptions

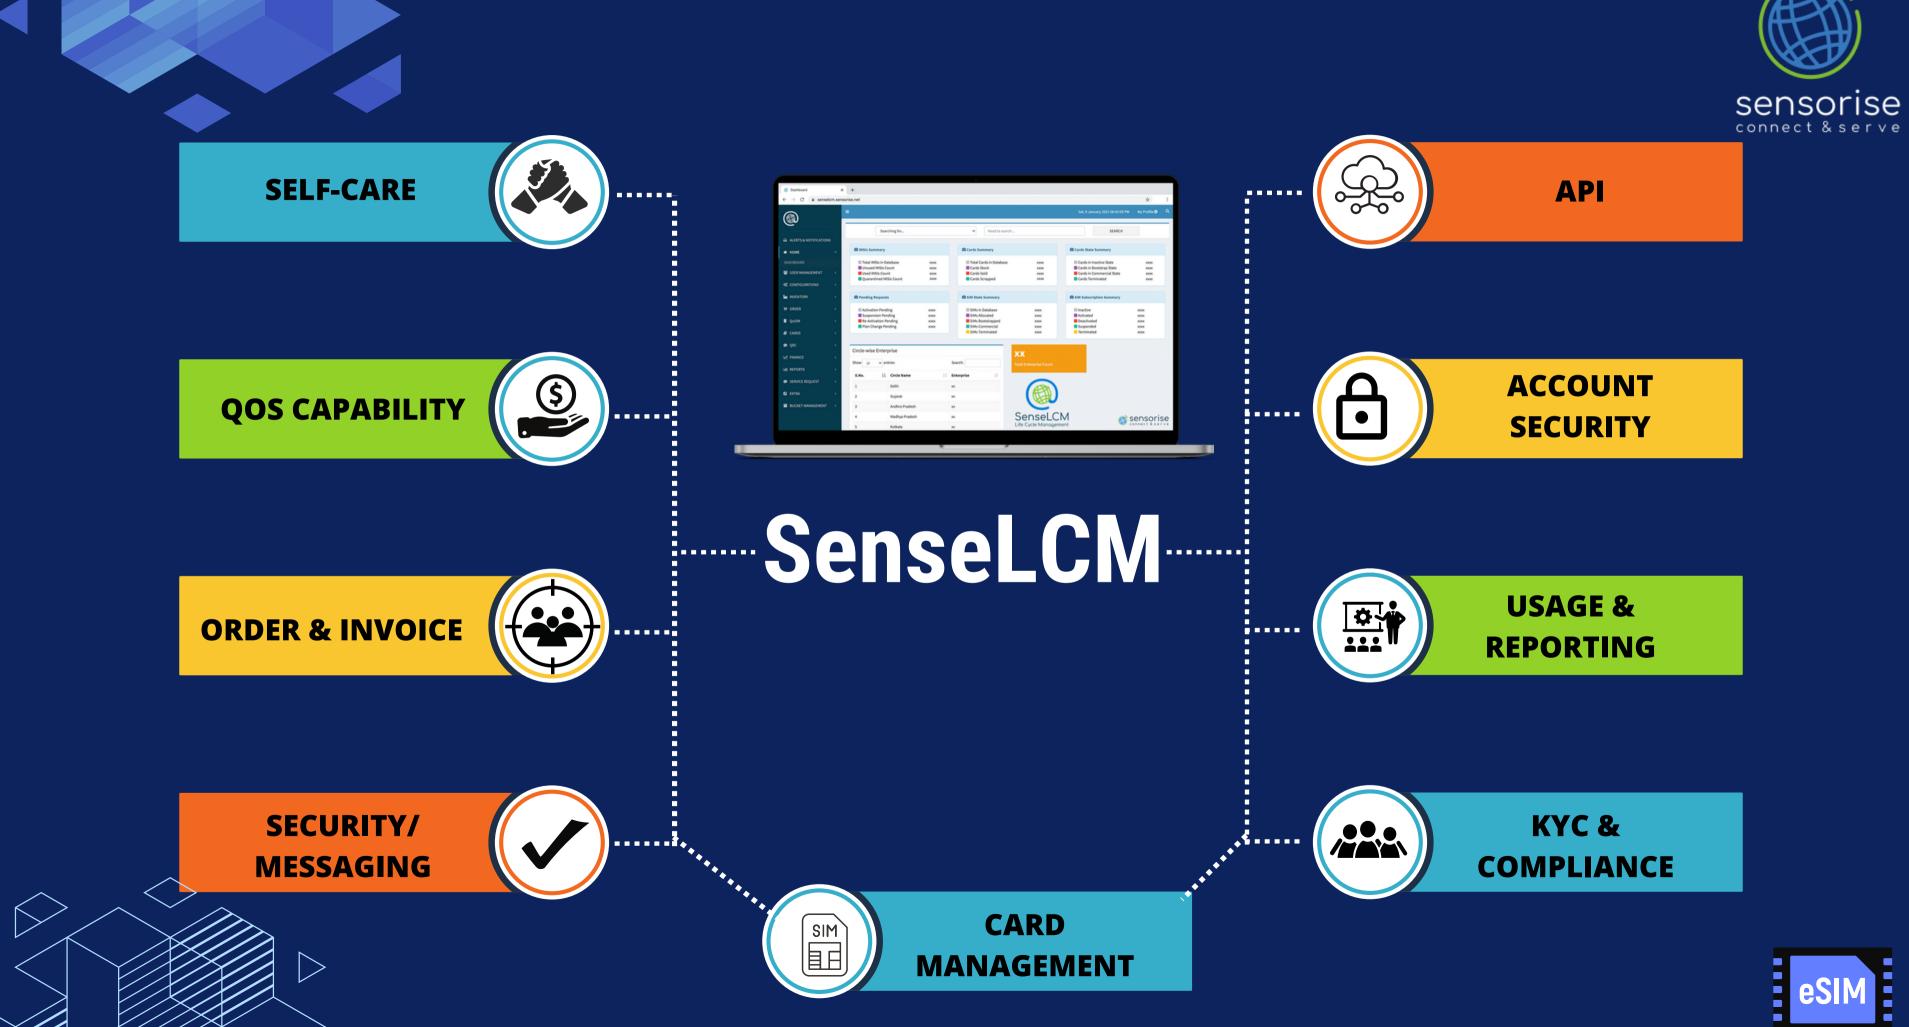

SenseTouch KYC

App for customer registration & verification

End-to-end Solution for secure registration & verification of IoT clients as per know-your-customer (KYC) norms

"Custodian – Machine / Device – SIM" Triplet verification using tamper resistant secure element and authentication

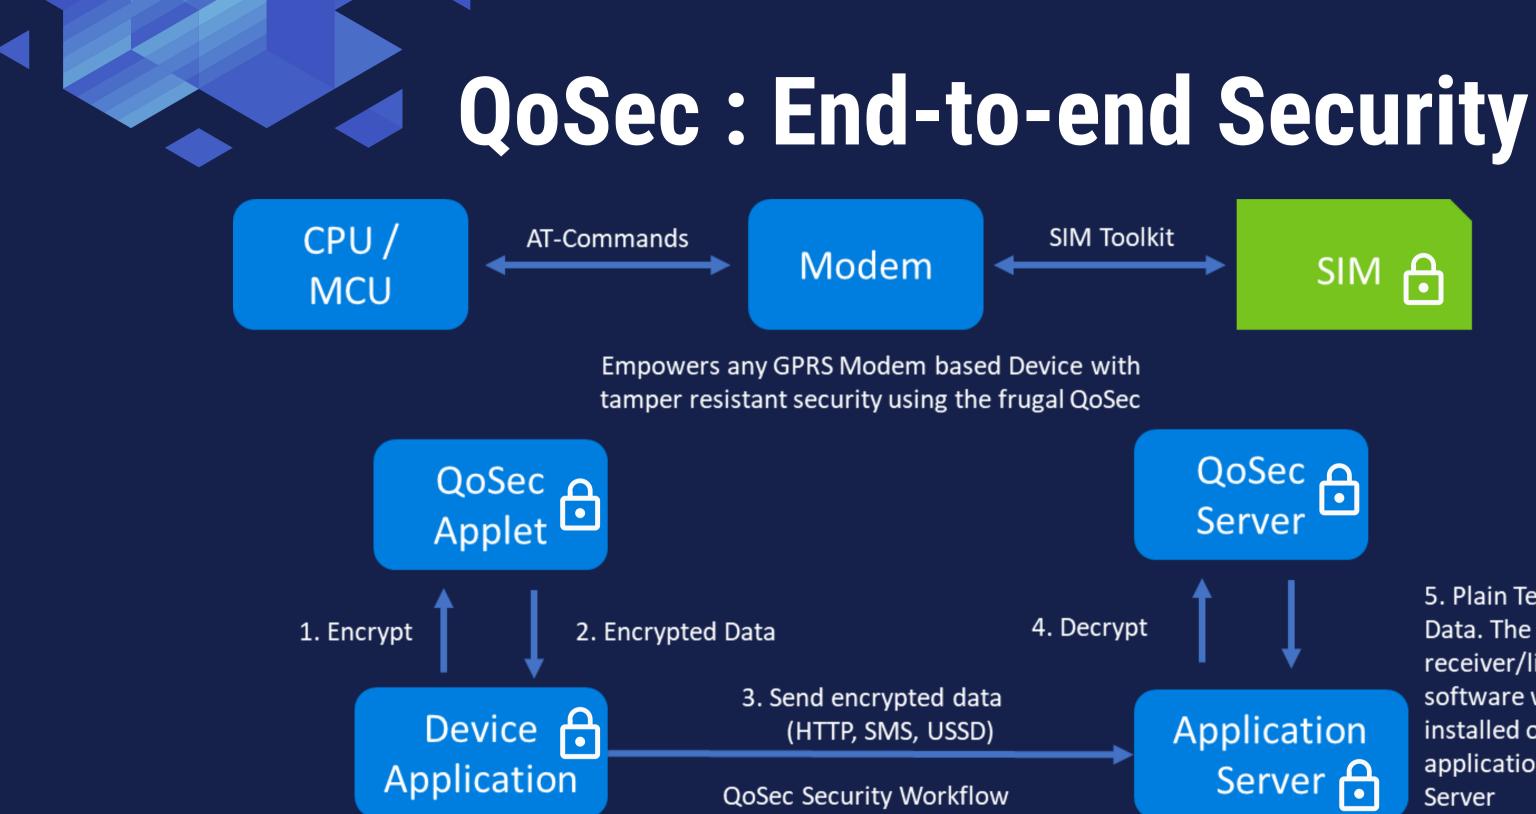

> Machine eKYC for any M2M Use case, SIM agnostic

Available in Andriod and iOS versions

Compliant with DoT Guidelines & TRAI Recommendations

Secure Element within QoSim, i.e. end-to-end IoT Security Solution that converts the operator SIM into a Secure Element

5. Plain Text Data. The receiver/listener software will be installed on EV application

SenselT - CFD & MAID

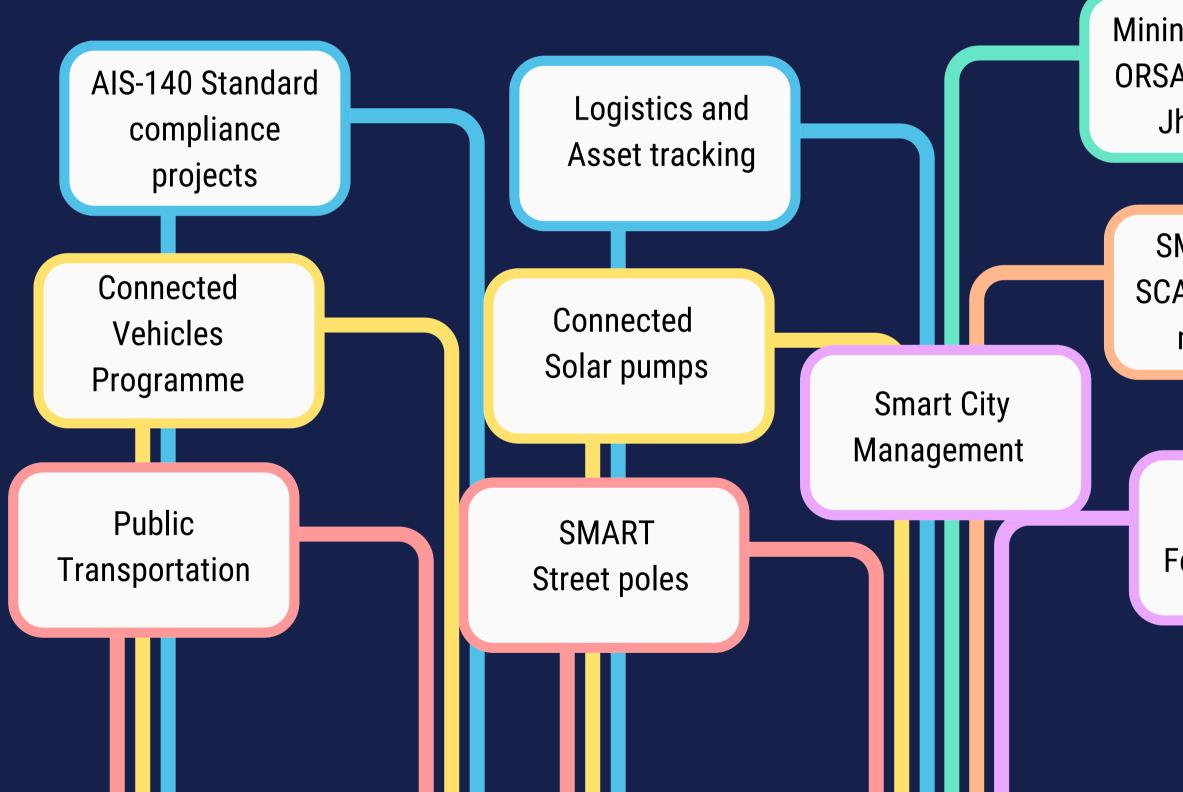

• Controller & GSM Module based Customer Feedback Device & portal • SenselT Multi-Access IoT Device and portal for SCADA

Industry Use-cases

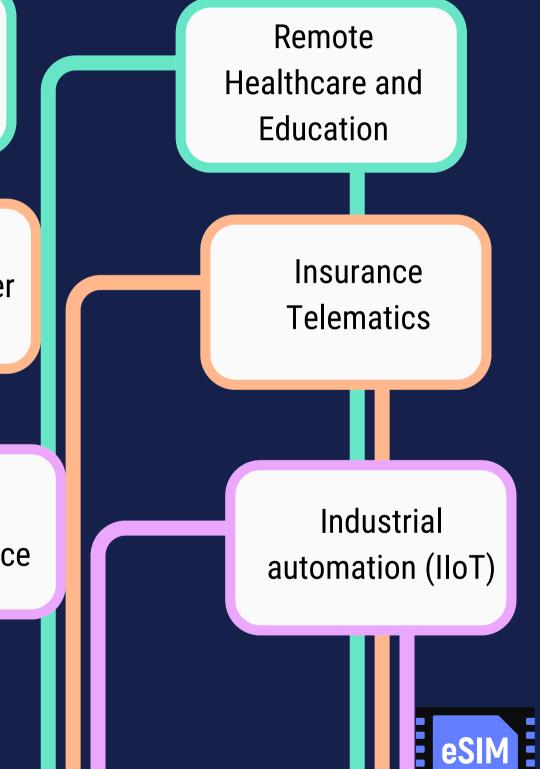

Mining projects -**ORSAC, APSAC &** Jharkhand

SMART Energy SCADA and meter monitoring

> Customer Feedback Device
